   Van Buren Township requests that the Belleville/Quirk Road intersection be provided with funding for necessary improvements to promote vehicular and pedestrian safety in the area. Due to heavy traffic volumes, Belleville Road traffic will back up from the intersection at Belleville / Denton roads, which will block the Belleville/Quirk intersection and create a hazard for pedestrians and other vehicles attempting to navigate the area. The intersection sits at the bend of a ninety (90) degree curve in the road, which limits the vision of drivers, and there is an existing stop sign from Quirk Road to Belleville, which forces motorists and pedestrians to attempt to turn/cross unaided in this area. This, combined with the forty-five (45) mile per hour speed limit of Belleville Road, makes the intersection hazardous.
